MEMORANDUM FOR: Chief, A3 Division, PO432/SPO, NSA

25X1A ATTENTION: [redacted]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search for Missile Activity Around Kustanaj, USSR

REFERENCE: (a) Requirement [redacted]  
(b) CIA/PID Project C 170-64

25X1D 1. This memorandum is in response to your requirement dated 20 January 1964 requesting a search for SSM deployment within a 40 nautical mile radius of Kustanaj (53-10N 63-35E) and also for evidence of MI-6 helicopters at the Kustanaj Airfield since [redacted]

25X1D 2. The area in question was covered by the following missions since [redacted]

3. Although aircraft were visible at the airfield, quality, or scattered clouds and small scale precludes the identification of any helicopters.

4. A thorough search within a 40 nautical mile radius of Kustanaj revealed no SSM activity. However, it should be noted that the type of missile activity in question would probably be a field type rather than as permanent as an ICBM complex.

25X1A 5. The photo analyst on this project is [redacted] who may be contacted on extension [redacted] should you have any further questions concerning this project.

6. This project is considered to be complete.

MEMORANDUM FOR: Chief, Defensive Systems Division, OSI

25X1A ATTENTION:

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Guideline Missile Mensuration

REFERENCE: (a) Requirement C-SI-3-80,882  
(b) CIA/PID Project C 1799-63  
(c) Memorandums M/EB 45/64 (24 Jan 64) and  
M/EB 97/64 (26 Feb 64)

1. This memorandum is in response to your requirement dated 16 December 1963, requesting detailed mensuration of the "Glau" Guideline Missile, and comparative mensuration on the Guideline variant which was seen in the November 1963 Moscow Parade.

2. The mensural data concerning the "Glau" Guideline Missile was forwarded to you in M/EB Memorandums 97/64, dated 26 February 1964, and 45/64, dated 24 January 1964. It is suggested that you disregard the figures submitted for the ratio between the sustainer diameter and the ogive length of the "Glau" Guideline in these two memorandums, and replace those figures with the ratio

25X1B

3. Attached herewith is the mensural data on the Moscow Parade Missile of November 1963. The mensuration was performed by TID/NPIC, and is presented as a dimensioned line drawing. The drawing is not drawn to scale.
